Mission

I'm seeking elevate my career trajectory. My goal is to secure employment in Chicago that aligns with my range of skills revolving around digital and print design with additional special interest in video editing, motion graphics, animation, web, and interactive design.

Employment

WILLIAMS LEA

October 2018-Present

Senior Graphic Designer

I've served two clients over the last six years in the field of Law. I've had the pleasure of working on diverse projects, including print and digital design, video, animation, motion graphics, and web design (using fundamental HTML5 and CSS knowledge) using Adobe Creative Suite and Microsoft Office products. I've applied a keen eye for composition, typography, photography, and video assets within my work to elevate the required content. I've worked closely with vendors to order and quality check on behalf of my requestors to ensure premium deliverables. I pride myself on my ability to maintain accuracy and meet deadlines, even when juggling many multidisciplinary projects in fast-paced environments. I've taken great pride in my work, contributing originality, creativity, and my full skill set to every project. I take lessons learned and compound them to improve tasks going forward. I've held great admiration for my team and fostered healthy working relationships to strengthen collaboration and comradery. I maintain detailed, strong, and transparent communication skills with my requestors to build trust and dependability.
